Model_Search_Engine
Software for automatic search of similar models
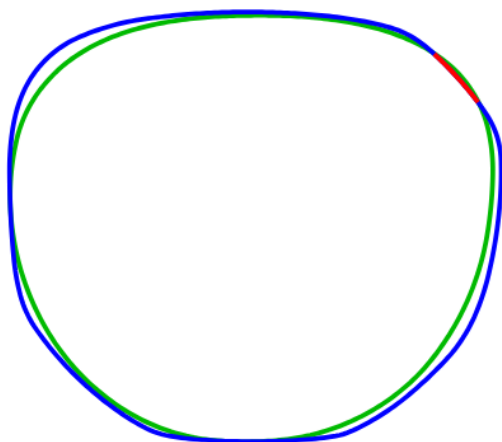

Model_Search_Engine

Software for automatic search of similar models

Model_Search_Engine is a revolutionary software for the automatic search of lenses or frames with a template compatible with a model. The following specific filters allow the software to refine the automatic search:

- Caliber
- Color
- Shape
- Type of lenses
- Gender
- Frame Material
- Commercial Status

The search result provides the operator with an easy-to-interpret score that includes:

- Shape correspondence
- Minimization of the shaping profile

Shape Score: 95.8 %
Distance Score: 97.4 %
Model: SL4350
EAN/UPC: 190605570913
Size: 52
Sku: 520705
SKU Color: SHINY TRANSPARENT DARK GREY
Ger. Prodotto: LO PAC PLAST
User Type: Man
Lens Type: SunGlasses (SOL)
Season: 24G
ZSku: SL4350 520705
ZSKU Description: ROMA 8 OCCH.SOLE LOZZA
BPCS Status: 0
Form: GEOMETRIC
Form Type: Full-Frame
Front Material: Cellulose acetate

The model database is automatically created by the Model_Importer tool by correlating the information from the lens technical drawings with the SAP information

Advantages:

- Automatic search and comparison of a template
- Filtering on template features to improve comparison
- Automatic import of templates from DWG drawings
- Automatic import of template characteristics from SAP files
